

OMAR ABDELPAQ

Data Analyst | Excel · Power BI · Python · SQL

+20 101 862 5471 | omarabdelpaq84@gmail.com | Sadat City, Menofia, Egypt | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Data Analyst with 1+ year of freelance experience delivering end-to-end BI and analytics solutions for clients across HR, sales, retail, and multi-industry sectors. Proficient in Python, SQL, Excel (Power Query, Power Pivot, DAX), Power BI, and Tableau. Completed 17+ real-world projects covering data cleaning, ETL pipeline design, dashboard development, and machine learning. Trained by NTI & ITIDA (92.5% score) with certifications from NVIDIA, AWS, and Huawei.

TECHNICAL SKILLS

Analysis & BI	SQL, Excel (Power Query, Power Pivot, VLOOKUP, DAX), Power BI, Tableau, KPI Analysis, EDA
Python	Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Databases	PostgreSQL, SQL Server (basic), Data Modeling, ETL Pipeline Design
Data Skills	Data Cleaning, Exploratory Data Analysis, Data Storytelling, Dashboard Design
Development	Python (Tkinter), HTML5, CSS3, JavaScript, GitHub

WORK EXPERIENCE

Freelance Data Analyst — Multiple Clients (Confidential)

Self-Employed | Egypt | 2024 – Present

- Delivered end-to-end BI and analytics solutions for clients across HR, sales, retail, and multi-industry sectors — including data cleaning, data modeling, KPI dashboard development, and executive reporting.
- Built star-schema Excel Power Pivot workbooks with DAX measures, interactive PivotCharts, slicers, and KPI scorecards, enabling clients to track performance across multiple product lines and sales channels.
- Handled full project lifecycle independently: scoping client requirements, designing data models, delivering dashboards, and iterating based on feedback.
- Worked with sensitive business data under confidentiality agreements; maintained data integrity and professional client communication throughout engagements.

Key Deliverables: HR Workforce Analytics Dashboard • Sales Performance BI Report • Ratings & Sentiment Analysis • Multi-Industry KPI Dashboard

PROJECTS & FREELANCE WORK

Gemma Ceramics — Data Mining & Analytics [Excel](#) · [Power Query](#) · [Power Pivot](#) · [DAX](#)

- Extracted 399 SKUs from the company website using Claude AI (web data mining). Cleaned and structured data with Power Query, built KPI measures with Power Pivot & DAX. Delivered a full Excel dashboard covering pricing analysis (401–1,077 EGP/m²), export distribution across 4 markets, and stock availability insights across 10 product collections.

Attendance ETL & Analytics System [Python](#) · [SQL](#) · [PostgreSQL](#) · [Power BI](#)

- Built a full ETL pipeline cleaning and loading 10,000+ student attendance records into PostgreSQL. Developed a Power BI dashboard tracking attendance trends by department, subject, and week — reducing manual reporting time by ~60%.

Netflix Titles ETL & Analytics Pipeline [Python](#) · [SQL](#) · [PostgreSQL](#) · [Power BI](#)

- Engineered an end-to-end ETL pipeline for 8,800+ Netflix titles: data cleaning, transformation, PostgreSQL loading, SQL analysis, and a Power BI insights dashboard.

Customer Purchase Prediction (ML) [Python](#) · [Scikit-learn](#)

- Developed a classification model predicting electronics purchase likelihood using behavioral and demographic features. Applied feature engineering, cross-validation, and model evaluation.

Amazon Sales Data Analysis [Excel](#) · [Power Query](#) · [Dashboard](#)

- End-to-end analysis of 50,000+ Amazon sales records. Cleaned data, calculated KPIs, and built an interactive dashboard identifying top revenue drivers.

Banking Customer Credit Analysis [Excel](#) · [EDA](#) · [Risk Analysis](#)

- Analyzed credit profiles of 30,000+ customers across risk groups and geographies to support financial decision-making.

Additional Projects (9+): HR Workforce Analytics, Hospital Operational Analytics, Data Visualization (Tableau & Power BI), Retail Sales, Udemy Course Analytics, Mobile & Laptop Market Analysis, Car Market Analysis, SQL Data Analysis Projects. Full details: github.com/omarabdelpaq84-design

EDUCATION & TRAINING

NTI & ITIDA — Data Analytics Summer Training

120 Hours (90 Technical + 30 Freelancing) · Final Score: 92.5% · Cairo, Egypt · Summer 2024

- Completed intensive training covering Python, SQL, Excel, Power BI, Tableau, and machine learning fundamentals.
- Delivered multiple end-to-end data analysis projects as part of the curriculum.

NTI — AI Ambassadors Program (2nd Cohort)

Engineers for Sustainable Egypt Initiative · Cairo, Egypt · 2024

- Selected as an AI Ambassador to promote AI literacy and awareness.

AI & Data Science — Undergraduate Student

Sadat City, Menofia, Egypt · Current

- Applying academic knowledge through 17+ independent real-world data analysis projects.

CERTIFICATIONS

Fundamentals of Deep Learning	NVIDIA Deep Learning Institute	2024
AWS AI Practitioner Challenge	Amazon Web Services (AWS)	2024
