SUMMARY

Data Analyst and Data Engineering student with hands-on experience building Power BI dashboards, SQL-driven analysis, and Python/Pandas ETL pipelines. Co-founder and Data & Business Intelligence Lead at Voltix, an early-stage Egyptian technology startup, leading data strategy and client-facing analytics work. Delivered 20+ independent data projects spanning business intelligence, ETL, and predictive analytics, plus freelance Power BI reporting for an industrial client. Currently completing the Digital Egypt Pioneers Initiative (DEPI) Data Engineering track.

SKILLS

Technical: Power BI (Advanced) — DAX, data modeling, dashboards, Power Query | SQL (Intermediate) — joins, aggregations, PostgreSQL | Python (Intermediate) — Pandas, data cleaning, ETL pipelines | Excel (Advanced) — Power Pivot, PivotCharts, star-schema modeling | Tableau | Git/GitHub

Professional: Problem Solving | Teamwork | Time Management | Communication

EXPERIENCE

Co-Founder & Data and Business Intelligence Lead | Voltix

June 2026 – Present | Egypt (Remote/Hybrid)

- Co-founded an early-stage Egyptian technology startup alongside four specialists covering Backend, Frontend, Cybersecurity, and UI/UX.
- Lead data and business intelligence strategy, including service definitions, portfolio structure, and case-study standards for client-facing analytics offerings.
- Drive content and operational planning for the company's early buildout, including client-facing messaging and go-to-market materials.

Power BI Freelance Analyst | EZZ Steel (Client Project)

2025 – 2026 | Remote

- Built Power BI dashboards for financial and production analytics for an industrial-sector client, translating raw operational data into decision-ready reporting.
- Designed DAX measures and data models to track sales, production, and financial performance across business units.

Data Analysis Intern | Summer Internship

Summer 2025 | Egypt

- Gained hands-on experience with Excel, Power BI, Tableau, and Python on real-world data analysis tasks.

KEY PROJECTS

Portfolio: omarabdelpaq84-design.github.io/omarabdelpaq | GitHub: github.com/omarabdelpaq84-design

EZZ Steel Financial Analysis (Power BI)

- Built a Power BI dashboard analyzing financial performance for a steel-industry client; github.com/omarabdelpaq84-design/ezz-steel-financial-analysis-powerbi

EZZ Steel Production Analytics

- Developed production analytics reporting to track output and efficiency metrics; github.com/omarabdelpaq84-design/ezz-steel-production-analytics

Egyptian National Team Power BI Dashboard

- Designed an interactive Power BI dashboard analyzing Egyptian National Team performance data; github.com/omarabdelpaq84-design/Egyptian-National-Team-PowerBI-Dashboard

Customer Purchase Prediction (ML)

- Built a machine learning model to predict customer purchasing behavior from historical data;
github.com/omarabdelpaq84-design/Customer-Purchase-Prediction-ML

Netflix ETL Analytics

- Built a Python/Pandas ETL pipeline to clean and structure Netflix catalog data for analysis;
github.com/omarabdelpaq84-design/netflix-etl-analytics

HR Workforce Analytics Dashboard

- Created an HR analytics dashboard tracking workforce metrics for data-driven people decisions;
github.com/omarabdelpaq84-design/hr-workforce-analytics-dashboard

EDUCATION

B.Sc. Computer Science and Artificial Intelligence — IoT and Big Data | Menoufia National University

2024 – Present (Expected) | Egypt

Thanawya Amma (Egyptian General Secondary Certificate) — 85% | Al-Farouk Omar Ibn Al-Khattab High School

2024 | Egypt

CERTIFICATIONS & TRAINING

- Digital Egypt Pioneers Initiative (DEPI) — Data Engineering Track, 2026
- Data Analytics Summer Training — NTI
- AI Ambassadors Initiative — NTI
- HCIA – AI Learning — Huawei ICT Academy
- ICDEL — Digital Transformation
- Getting Started with Deep Learning — NVIDIA
- AWS AI Practitioner Challenge — Udacity
- Generative AI — CIB Summer Internship
- Innovation Camp — INJAZ Egypt
